- Increased speed and accuracy through intelligent order processing and automatic multiple printing

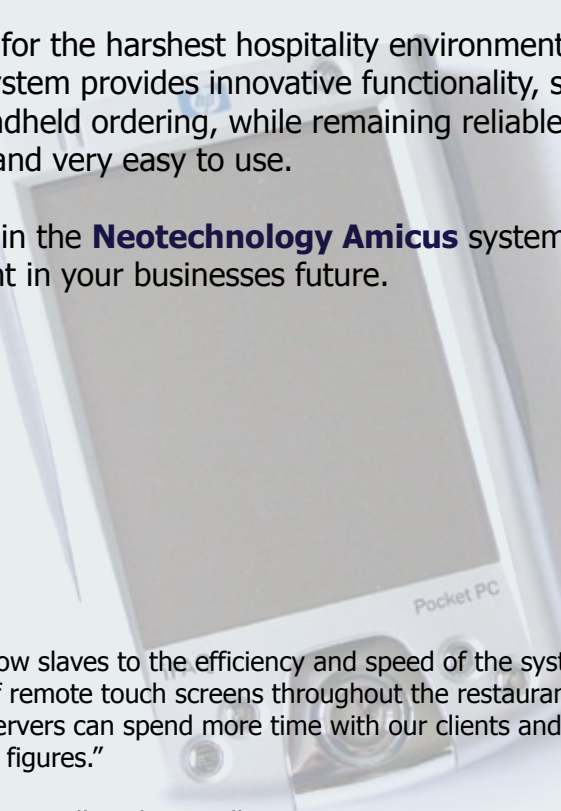

Neotechnology

BUSINESS SYSTEMS

The **Neotechnology Amicus** system for hospitality is a reliable and cost effective system for businesses of any size. It will increase the speed, efficiency and accuracy of your operations, helping you to improve your bottom line and offer an exceptional experience for your customers.

Designed for the harshest hospitality environments, the Amicus system provides innovative functionality, such as smart handheld ordering, while remaining reliable, cost effective and very easy to use.

Investing in the **Neotechnology Amicus** system is an investment in your businesses future.

"We are now slaves to the efficiency and speed of the system. The location of remote touch screens throughout the restaurant means that our servers can spend more time with our clients and improve their sales figures."
